EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Applicant's Attorney Leonard Diana (Reg. No. 29,296) on 04/20/06.

3. The claims have been amended as follows:

Claim 103: line 2, replace "step of" with "code for"

Claim 104: line 3, replace "fo" with "of"

Claim 108: An apparatus for providing active user feedback in a graphic user interface including an adjustable soft control able to change an attribute of an object over a continuous range of attribute values, said apparatus comprising:

a screen counter detection controller for controlling detecting positioning of a pointing device over the soft control, said positioning designating the soft control;

a window display controller for controlling displaying a window upon designation of the soft control;

an object representation display controller for controlling displaying a representation of the object in the window; and

a display animation controller for controlling animating the displayed representation of the object to mimic an effect on the attribute of a nominal adjustment of the soft control, said animation being presented in the window as a training preview

Art Unit: 2173

exemplifying the nature of change in said attribute that can be expected to arise from adjustment of the soft control.

Claim 112: line 4, delete "actual"

Claim 114: line 4, delete "actual"

Claim 115: An apparatus according to claim 108, further comprising:

a designating release controller for controlling releasing the designation of the soft control; and

an object display controller for controlling changing a display of the object in a display area of the graphical user interface in response to the releasing of the soft control.

Allowable Subject Matter

4. Claims 89-108 and 111-115 are allowed.

5. The following is an examiner's statement of reasons for allowance:

The Examiner has carefully considered the independent claims 89, 98, and 108.

The prior art of record does not teach "animating the displayed representation of the object to mimic an effect on the attribute of a nominal adjustment of the soft control, said animation being in the window as training preview exemplifying the nature of change in said attribute that can be expected to arise from adjustment of the soft control" in specific combinations as recited in claims 89, 98, and 108.

The dependent claims of the independent claims 89, 98, and 108 are allowed for the same reason cited above.

Art Unit: 2173
